

COMMITTEE TOPICS

FORUM 1: Environment	FORUM 1: Human Rights
The need to mandate the use of environmentally sustainable technologies within industries.	The need to increase the standards of living for all workers through the distribution of income.
OR	OR
The need to develop strategies to improve waste management systems to combat the overproduction of material goods in times of economic growth.	The need for workers to be educated and trained in building and maintaining an inclusive workplace, with equal rights for all workers.
FORUM 1: Eco-Soc	FORUM 1: Political
The need for countries to utilize digital and AI technologies to their advantage, whilst ensuring job security for all workers.	The need to implement policies that enforce labour rights and safe working environments for workers of all abilities.
OR	OR
The need to improve the quality and access to education and training to allow for greater working opportunities both locally and internationally.	The need to implement and enforce policies to promote sustainable industries for the creation of jobs and the preservation of local culture.
FORUM 2: Environment	FORUM 2: Human Rights
The need to formulate strategies to address the over-extraction of natural resources due to urbanisation and globalisation.	The need to emphasize and protect labour rights for all workers, particularly for women, migrant workers and those in precarious jobs.
OR	OR
The need to tackle health issues caused by industrial pollution that prevent people from participating in the economy.	The need to adapt to the rapid evolution in the workforce through education and training programmes, to reduce unemployment.
FORUM 2: Eco-Soc	FORUM 2: Political
How can member states ensure that economic growth and job opportunities are inclusive for all citizens, especially for marginalized and disadvantaged groups?	The need to promote political policies for economic growth through diversification, innovation, and access to financial services for all workers.
OR	OR
What actions can member states take to promote diversification in their economies and drive inclusive and sustainable economic growth?	The need to promote government policies on development that help with encouraging entrepreneurial opportunities, decent job creation, creativity, and innovation.
